CHAPTER 18-000 PREGNANT WOMEN, PARENTS/CARETAKER RELATIVES, CHILDREN, 599 CHIP, FORMER WARDS, AND HOSPITAL PRESUMPTIVE

18-001 PREGNANT WOMEN

18-001.01 Pregnancy Verification: Verification of pregnancy shall not be required unless information is not reasonably compatible with the applicant or client's attestation.

18-001.02 Presumptive Eligibility (PE): Under Section 1920 of the Social Security Act, Medicaid covers ambulatory prenatal care for pregnant women on the basis of presumptive eligibility. The qualified provider may authorize a period of presumptive eligibility once per pregnancy. Note: There is no presumptive eligibility for 599 CHIP unborn.

18-001.02A Ambulatory Prenatal Care: See 471 NAC 28-001.

18-001.02B Qualified Provider: Only a qualified provider is allowed to make the presumptive eligibility determinations. See 471 NAC 28-001.01 for requirements of a qualified provider.

18-001.02C Qualified Provider Responsibilities: The qualified provider makes a presumptive determination of the woman's eligibility based only on declared income and citizenship/eligible alien status.

1. Income of the woman and spouse (if he is in the home) or the responsible parent(s) of a pregnant minor is counted.
2. The provider does not investigate other eligibility requirements.
3. The provider must forward the application form, along with the attestation form if applicable to the Department within five (5) working days after the determination of presumptive eligibility.

18-001.02D Effective Date: The date the provider determines presumptive eligibility for assistance.

18-001.02E Presumptive Eligibility Period: Presumptive eligibility begins on the day a qualified provider determines that a woman meets any of the income eligibility levels. Eligibility shall be determined within 45 days.

If the woman files an application for Medicaid by the last day of the month following the month in which the qualified provider made the determination of presumptive eligibility, the presumptive eligibility ends on the day that the State agency makes the determination of Medicaid eligibility based on that application.

If the woman does not file an application for Medicaid by the last day of the month following the month in which the qualified provider made the determination, the presumptive eligibility ends on that last day.

A presumptive application approved in error will be closed by the Department upon discovery of the error.

The Department is not required to notify the woman that her PE case has closed, but the Department is required to send a notice when Medicaid eligibility has been determined.

18-004 599 CHIP PROGRAM

18-004.01 Eligibility Requirements: A pregnant woman, who is not otherwise eligible for Medicaid, may apply to have her unborn child(s) eligibility reviewed under the 599 CHIP program. Eligibility for Medicaid must first be determined before 599 CHIP eligibility can be reviewed. Eligibility is determined for unborn children from conception through birth, if the pregnant woman and spouse's income is at or below the Federal Poverty Level (FPL). See Appendix 477-000-012 for the applicable FPL.

599 CHIP has no requirement for citizenship or alien status due to the unborn(s) status being independent of the pregnant woman.

There is no eligibility for the unborn(s) if the pregnant woman has creditable health insurance. Health insurance that does not provide prenatal or maternity care is not considered creditable coverage. For a definition of creditable health insurance, see 477 NAC 1.

The pregnant woman will not be eligible for post-partum services under 599 CHIP. If post-partum care is needed for complications following labor and delivery, the woman may apply for Emergency Medical Services Assistance (EMSA).

18-004.02 Nebraska Residence: The residency of the unborn(s) will follow the residency of the pregnant woman.

18-004.03 Relative Responsibility: Relative responsibility for 599 CHIP has the following exception:

For a pregnant minor, their financially responsible parent(s) income shall not be used in the unborn child(s) 599 CHIP budget.

18-004.04 Age Requirement: For receipt of 599 CHIP benefits, an individual is considered an unborn child from conception to birth.

18-004.05 Unborn 599 CHIP Eligibility if Parent(s) Does Not Cooperate: If an ineligible pregnant woman or her spouse fails or refuses to cooperate with third party liability, the unborn(s) is ineligible for 599 CHIP.

18-004.06 Effective Date of Medical Eligibility: The effective date of eligibility for 599 CHIP is no earlier than the first day of the application month.

Note: There is no retroactive eligibility for the 599 CHIP Program.

18-004.07 Continuous Eligibility: Unborn children are continuously eligible up to six months or through their month of birth, whichever comes first. After the six months of continuous eligibility, a full eligibility review is not required. However, information reported or known to the Department must be acted upon.

Note: The unborn must have at least a 30 day period of ineligibility before they would qualify for another six month period of continuous eligibility.

Following the birth of the child, eligibility will be determined for medical assistance based on any changes reported or known to the Department.

Note: Following the birth, if the newborn is determined eligible for medical assistance, the newborn is eligible for six months of continuous medical eligibility.

18-006 HOSPITAL PRESUMPTIVE ELIGIBILITY: The Department shall provide Medicaid during a presumptive eligibility period to individuals who are determined eligible by a qualified hospital. The determination is on the basis of preliminary information, that the individual has gross income at or below the income standard established for the applicable group, has attested to being a citizen or national of the United States or is in satisfactory immigration status, and is a resident of Nebraska, to be presumptively eligible in accordance with the policies and procedures established by the Department.
